

RESOLUTION 2012-12-6

**A RESOLUTION OF THE HANCOCK COMMISSIONERS
OF THE COUNTY OF HANCOCK, INDIANA
ADOPTING THE AMERICANS WITH DISABILITIES ACT (ADA)
TRANSITION PLAN**

WHEREAS, the Federal government enacted the Americans with Disabilities Act of 1990 (ADA) to prevent discrimination of the physically and mentally disabled relating to employment and access to public facilities; and

WHEREAS, Title II of the ADA requires that municipalities develop and adopt a Transition Plan documents physical barriers to accessibility, proposed structural modifications to remove those barriers, and a schedule to complete the modifications; and

WHEREAS, the County of Hancock adopted Resolution 2011-12-2 pertaining to ADA Standards for Accessible Design and Guidelines for Pedestrian Facilities in the Public Right-of-Way; and

WHEREAS, the United States Department of Justice recently modified the ADA Standards for Accessible Design and the Guidelines for Pedestrian Facilities in the Public Right-of-Way in 2010 and 2011, respectively; and

WHEREAS, the County of Hancock remains committed to the ADA and the elimination of barriers to public facilities; and

WHEREAS, a Transition Plan for the pedestrian network has been prepared that reflects current municipality infrastructure and ADA design standards, referred to as the "ADA Transition Plan"

NOW, THEREFORE, BE IT RESOLVED that the County Commissioners of the County of Hancock hereby approves the ADA Transition Plan.

PASSED, APPROVED AND ADOPTED this 18 day of December, 2012.

Adopted this 18 day of December, 2012.

Board of Commissioners
Hancock County, Indiana

INDIANA

TRANSITION PLAN

Adopted by: Hancock County Board of Commissioners
Date: December 18, 2012

Hancock County Government

ADA Self Evaluation / Transition Plan

Americans with Disabilities Act (ADA)

The ADA prohibits discrimination on the basis of disability in employment, State and local government, public accommodations, commercial facilities, transportation, and telecommunications.

To be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such impairment, or a person who is perceived by others as having such impairment. The ADA does not specifically name all of the impairments that are covered.

ADA Title I: Employment

- ❖ Title I requires employers with 15 or more employees to provide qualified individuals with disabilities an equal opportunity to benefit from the full range of employment-related opportunities available to others.

ADA Title II: State and Local Government Activities

- ❖ Title II covers all activities of State and local governments regardless of the government entity's size or receipt of Federal funding. Title II requires that State and local governments give people with disabilities an equal opportunity to benefit from all of their programs, services, and activities.

ADA Title III: Public Accommodations

- ❖ Title III covers businesses and nonprofit service providers that are public accommodations, privately operated entities offering certain types of courses and examinations, privately operated transportation, and commercial facilities.

ADA Title IV: Telecommunications Relay Services

- ❖ Title IV addresses telephone and television access for people with hearing and speech disabilities.

ADA Title V: Miscellaneous Provisions

- ❖ Title V contains several miscellaneous regulations, including construction standards and practices.

The Department of Justice published revised regulations for Titles II and III of the Americans with Disabilities Act of 1990 "ADA" in the *Federal Register* on September 15, 2010. These regulations adopted revised, enforceable accessibility standards called the 2010 ADA Standards for Accessible Design "2010 Standards" or "Standards". The 2010 Standards set minimum requirements – both scoping and technical – for newly designed and constructed or altered State and local government facilities, public accommodations, and commercial facilities to be readily accessible to and usable by individuals with disabilities.

ADA and its Relationship to Other Laws

Title II of the ADA is companion legislation to two previous federal statutes and regulations; the Architectural Barriers Acts of 1968 and Section 504 of the Rehabilitation Act of 1973.

The Architectural Barriers Act requires access to facilities designed, built, altered or leased with Federal funds. Passed by Congress in 1968, it marks one of the first efforts to ensure access to the built environment.

Section 504 of the Rehabilitation Act of 1973 is a federal law that protects qualified individuals from discrimination based on their disability. The nondiscrimination requirements of the law apply to employers and organizations that receive financial assistance from any Federal department or agency. Title II of the ADA extended this coverage to all state and local government entities, regardless of whether they receive federal funding or not.

When addressing accessibility needs and requirements it is important to note that the ADA and Title II do not supersede or preempt state or local laws that may offer equivalent or greater protections.

As required by Title II of ADA, Hancock County Government must conduct a self-evaluation of physical assets and current policies and practices. As inventories are completed they will be included as appendices to the transition plan and modified ongoing, as appropriate.

Self Evaluation

OBJECTIVES:

The purpose of our assessment of the Hancock County Facilities was to evaluate the publically accessible areas of the properties for compliance with ADA (Americans with Disabilities Act), ADAAG and PROWAG guidelines. The investigation included the evaluation of any site and architectural barriers consistent with the requirements of the ADA Standards for Accessible Design (2010). In addition, the information gathered from the services, programs and procedures questionnaire completed by the facility manager and the public meeting concerning input from the community members. As required by Title II of the ADA, Hancock County Government has and will continue to conduct a self-evaluation of its facilities.

County Facilities Surveyed

- Annex
- Courthouse
- E-911
- Highway Department
- Prosecutors Office
- Sheriff Department
- Extension Office
- Community Correction
- Memorial Building

Hancock County has remodeled or constructed a few new facilities in the downtown Greenfield area. These buildings were constructed or remodeled pursuant to applicable state and local building codes and meet accessibility requirements; though in some cases, improvements are needed.

However, some county buildings were constructed prior to the enactment of the Americans with Disabilities Act. These structures were not originally designed pursuant to accessibility codes. While facilities constructed in more recent years have differing degrees of accessibility, various features within them may be deficient as a result of changing code provisions. Some structures, however, have undergone remodel and alterations and consequently do comply more fully with current building code and accessibility standards. Additional work is needed to remove the remaining physical obstacles found within county buildings.

Physical removal of accessibility barriers will be implemented whenever possible on existing county facilities where it is technically feasible to do so. Facility surveys, provided below, identify the areas where improvements are needed. Project checklists and/or spreadsheets summarize survey reports, track progress and funding.

In addition to the physical assessment a questionnaire was distributed to the facility department heads requesting information regarding current accommodations that are available to the public that visit the facility. Typical accommodations include providing physical assistance to the public while at the facility and providing written or Braille materials for the hearing, visual or speech impaired, etc.

Assessment Summary of Facilities:

Hancock County owns nine (9) facilities located within the city limits of Greenfield. Three (3) built after 1991; of the remaining six (6) only two (2) had remodeling after 1991. The Memorial Building is currently on the National Registry of Historical Buildings. Any alterations to the Memorial Building will significantly impact the historical features. No alterations are being considered at this time. The Prosecutors Office is another historical building in the historic district that will be addressed in future alterations. Both locations offer alternate locations to the disabled for all programs, services and activities upon request. A Judicial Facilities Study was conducted and submitted by Schenkel Shultz Architecture in 2010 which incorporates the county Jail, Courthouse, Prosecutors Office and Community Corrections. Proposals are currently under consideration.

Based on our on-site assessment, it is our opinion the majority of conditions at the facilities built or remodeled after 1992 are in substantial compliance with the 1991 ADA Standards for Accessible Design. Very few issues were observed that could be considered major issues on non-compliance. However; several issues that should be addressed in the transition plan. Listed below are the conditions and issues found that do not fully conform to the 2010 ADA Standards for Accessible Design. It is also our opinion that there were several conditions that have been modified to provide some level of accessibility. Where in the case of no accessibility is possible, other means of providing programs and services are offered at alternate locations.

Pedestrian walks, ramps and crossings:

A survey and assessment of pedestrian walks, ramps and crossings were conducted within the Hancock County owned right-of-way. All County owned pedestrian walks are located in rural subdivisions throughout the county. Pedestrian route surveys provided below identify the areas where improvements are needed. Project checklists and/or spreadsheets summarize survey reports, track progress and funding.

Subdivisions Surveyed

- Boulder Creek
- Briarwood Trace
- Bristol Ridge
- Centennial
- Fox Cove
- Greyhawk Woods
- Havens
- Herron Creek
- Mt Vernon Pointe
- Meadow Lake
- Richman Platz
- Stansbury
- Village Green
- Woodhaven

Assessment Summary of Pedestrian walks, ramps and crossings:

Within the fourteen (14) subdivisions surveyed. Hancock County has assessed the compliancy of two hundred and forty (240) curb ramps and cross walks, we found 34% are fully compliant; 42% are substantially compliant; and 24% substantially non-compliant. As well, we have assessed the compliancy of approximately 155,000 feet of pedestrian walk; we found 94% to be fully compliant, 4% substantially compliant, and 2% substantially non-compliant. Willow Branch and Charlottesville are non-incorporated towns built in the late 1800's which are missing more than 75% of their walks. Any remaining walks are non-accessible.

Transition Plan

The County has developed this Transition Plan that outlines the necessary steps to be fully compliant with the requirements of Title II of the ADA and detailing how the County will ensure all facilities, services, programs and activities are accessible to all individuals. Where access cannot be provided, alternate means to provide the same opportunities to persons with disabilities have and will be provided.

The plan must:

1. List the physical barriers in a public entity's facilities that limit the accessibility of its programs, activities, and services to individuals with disabilities,
2. Describe the methods that will be used to remove these barriers,
3. Specify the schedule for taking the necessary steps to comply with Title II of the ADA; and,
4. Name the individual responsible for the plan's implementation

Transition Plan Management

Hancock County's transition plan is a living document that will be updated on a regular basis, as appropriate. The first formal update to the Hancock County ADA Transition Plan is scheduled to occur two years from the plan's formal adoption and on a five year cycle thereafter. At the recommendation of the ADA Coordinator, the update schedule may be altered at the discretion of the Hancock County Board of Commissioners.

Grievance Procedure

Under the Americans with Disabilities Act, users of Hancock County facilities and services have the right to file a grievance if they believe the County has not provided reasonable accommodation. All complaints should be presented in writing to Hancock County's ADA Coordinator.

Please consult the Grievance Procedure found in Appendix A or Hancock County's website at www.hancockcoingov.org for details. A formal complaint must be filed within 60 calendar days of the alleged occurrence. Hancock County Government will not officially act or respond to complaints made verbally.

Communications

According to Section 35.160(a) of the ADA, "...A public entity shall take appropriate steps to ensure that communications with applicants, participants, and members of the public with disabilities are as effective as communications with others." This means that Hancock County is required to provide equally effective communication to individuals with disabilities. Equally effective communication can be provided by offering alternative formats, auxiliary aid(s) and/or services upon request. For example, interpreters may be hired as requested, or as needs are identified, for the hearing impaired.

Website Communications

Hancock County Government is committed to ensuring its websites are in compliance with ADA accessibility requirements. By the end of 2014, it is expected that the Hancock County Government website is in full compliance with ADA access requirements. Until full compliance is attained, the ADA Coordinator will review the website, recommending and implementing modifications and improvements on a regular basis.

Public Involvement

All public meetings and hearings held by Hancock County are required to be accessible to all. Hancock County is able to make qualified interpreters available with advance request and provide documents in accessible electronic format or other alternative formats such as large print or Braille.

Public meetings, training, programs or other events must be in an accessible location and indicated on the meeting notice.

Schedule

It is the goal of Hancock County to follow attached outlined schedule for the removal of physical barriers within all County owned right-of-way and facilities. Timeline of the removal of barriers may be reviewed and altered at the discretion of the Hancock County Board of Commissioners at any time. Timeline for facilities were based on the proposal of the Judicial Facilities Study. Replacement of sidewalks and ramps will be conducted of a 30 year period with the estimated construction cost of \$15,000 per year allocated for the removal of barriers in the right-of-way.

HANCOCK COUNTY, INDIANA

Grievance Procedure under The Americans with Disabilities Act

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990. It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by the County. The County's Personnel Policy governs employment-related complaints of disability discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of complainant and location, date and description of the problem. Alternative means of filing complaints, such as personal interviews, or a tape recording of the complaint, will be made available for person with disabilities upon request.

The complaint should be submitted by the grievant and/or his/her designee as soon as possible but no later than 60 calendar days after the alleged violation to:

Joe Hollis
Hancock County Highway Department
921 West Osage Street
Greenfield, IN 46140

Within 15 calendar days after receipt of the complaint, Joe Hollis or his designee will meet with the complainant to discuss the complaint and the possible resolutions. Within 15 calendar days of the meeting, Joe Hollis or his designee will respond in writing, and where appropriate, in format accessible to the complainant, such as large print, Braille, or audio tape. The response will explain the position of the County and offer options for substantive resolution of the complaint.

If the response by Joe Hollis or his designee does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision within 15 calendar days after receipt of the response to the County Commissioners or their designee.

Within 15 calendar days after receipt of the appeal, the County Commissioners or their designee will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the County Commissioners or their designee will respond in writing, and, where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by Joe Hollis or his designee, appeals to the County Commissioners or their designee, and responses from these two offices will be retained by the County for at least three years.
