

# Hancock County Employee Health Clinic

## Update 04/13/2020

Effective today, April 13, 2020 both locations of the Hancock County Employee Health Clinics will reopen with some changes.

Clinics will be open for **PHONE** visits **only**. This is to eliminate exposure and to conserve PPE equipment.

Hours are the same as in the past.

They will **NOT** be doing any **annual physicals** or **DOT physicals**.

You will once again be able to get **medications refilled at the clinic**. If a medicine that you normally get filled at the clinic is not available, please be patient and understanding. Some medication may still be on short supply.

**Scheduling** will still be done through the **clinic's online scheduler** (Jellyfish) which you can access from the county's website. This will be for both the phone visits and the medicine refills.

Anyone with **respiratory symptoms** should still call the **COVID-19 HOTLINE @ 317-325-2683**.

**Please be patient as this is a new process for all involved. Let me know if you have any questions or need any help this process.**

Regards,

Mary McCoy
