

**CLASS I DRIVE (PRIVATE)  
WITH SIDEWALK ADJACENT TO CURB**  
Not to Scale

**SECTION "A-A"**  
Not to Scale

- ① Refer to plans for pavement type and thickness required beyond Right-of-Way line, driveway width, length, and radii to be constructed.
- ② The Maximum algebraic difference in grades for any 10 foot interval shall not exceed 8% for crest vertical curves, nor 12% for sag vertical curves.
- ③ See INDOT Standard Drawing MHC for concrete curb and gutter connection detail and monolithic curb detail.

Legend

W = Width of sidewalk  
 Y = Distance from face of curb to P/L and/or R/W  
 Curb Ramp Type H (See sheets MHD and MHE)

NO SCALE
