**Customer Procedure
for Recording Major Subdivision Plats,
Final Detailed Plans, & Minor Subdivision Plats**

Prior to recording the plat, the customer must first obtain the required signatures on the subdivision review routing sheet. The Transfer Department is the first signature to be obtained on the routing sheet. To accomplish this, the customer will deliver a full-scale paper copy of the plat to the Transfer Department located in the County Auditor office (County Annex, Suite 217). The Transfer Department will then draw the legal description to verify its accuracy and sign the routing sheet. This process will require at least two business days. Afterward, the customer will proceed with obtaining the remaining signatures on the routing sheet.

Upon completing the routing sheet, the customer will present one set of as-built construction plans, one (1) Mylar copy of the plat, and three (3) paper copies of the plat to the Plan Commission office for final signatures. The Plan Commission office will retain the construction plans and one paper copy of the plat, and the customer will present the Mylar plus two (2) paper copies of the fully signed plat to the County Auditor office (Annex, Suite 217). Each copy of the plat must bear all of the required signatures. The Auditor will then verify payment of taxes and affix a "duly entered" stamp on each copy of the plat. Afterward, the customer must distribute copies of the signed plat as follows:

1. One (1) paper copy of the plat to the County Recorder office for recordation (at least one of these must be an original signed copy).
2. One (1) CD-ROM copy of the plat to the County GIS Department (Annex, Suite 171) in ESRI shapefile or AutoCAD format. The plat must be projected using Indiana State Plane East NAD 83. Boundary, parcels, streets, and as-builts shall be shown as separate layers.
3. One (1) Mylar copy of the plat to the County Plan Commission office (Annex, Suite 146).
4. One (1) paper copy of the recorded plat is retained by the customer for his/her personal records. (The customer is advised to write the document, cabinet, and slide numbers on the retained copy.)
